COPYRIGHT/PROPRIETARY PROTECTION

The Product is owned by Acronymics or its suppliers and is protected by United States and international copyright laws and international treaty provisions. You must treat the Product like any other copyrighted material, except to the extent that this license provides to the contrary. Your right to use the Product terminates automatically if you violate any part of this License. In the event of termination, you must immediately destroy all copies of the Product or return them to Acronymics.

TITLE

Title, and ownership right, and intellectual property rights in and to the Software and Documentation shall remain in Acronymics and/or in suppliers to Acronymics of programs contained in the Software. The Software is provided for your own internal use under this license. This license does not include the right to sublicense and is personal to you and therefore may not be assigned (by operation of law or otherwise) or transferred without the prior written consent of Acronymics. You acknowledge that the Software in source code form remains a confidential trade secret of Acronymics and its suppliers.

LICENSE GRANT

This License determines your rights with respect to the Software.

- **Development License.** You may develop, reproduce and distribute applications which use, incorporate or require the Software to execute, *provided that* you purchase a Run-Time license for, and distribute the Run-Time Software with, each copy of any such applications distributed and provided that you have paid for a Development license. You may not distribute the Software in any form other than such applications and Run-Time Software for which you have purchased a Run-Time license.
- **Run-Time License.** You may use other software applications that require the Software to execute provided that you have purchased a Run-Time License. A Run-Time License does not include the right to develop, reproduce or distribute the Software or any software applications which use, incorporate or require the Software to execute. You must purchase a Development license for such development, reproduction and distribution rights.
- **Evaluation License.** If you are evaluating this Software and have not paid for either a Development or a Run-Time license, you may use the Software through the end of the evaluation period specified for the evaluation Software. Use of the Software beyond the end date is prohibited. During the evaluation

period, you may not reproduce or distribute the Software or any software applications which use, incorporate or require the Software to execute.

- Use one copy of the Software on a single computer, provided that the Software is in use on only one computer at a time. If you have multiple Licenses for the Software, then at any time you may use as many copies of the Software as you have Licenses. If the number of persons who can access and use the Software exceeds the number of Licenses you have, then you must have a reasonable mechanism or process in place to ensure that the number of persons using the Software at the same time does not exceed the number of Licenses. For the purpose of this paragraph, installing a copy of the Software on a network server where it is resident for the sole purpose of distributing it to other computers is not “use” that requires an additional license.
- Use one copy of the Software on a single terminal connected to a single computer (i.e., with a single CPU). The end user may copy the Software from one single terminal to another such single terminal, portable or home computer, or terminal belonging to or used by the end user, provided that the Software is in use on only one computer at a time and is never installed on more than two computers at any one time and is used only by the end user.
- Make one copy of the Software for archival purposes, or copy the Software onto the hard disk of your computer and retain the original for archival purposes.
- After written notification to Acronymics, transfer the entire Product on a permanent basis to another person or entity, provided you retain no copies of the Product and the transferee agrees to the terms of this License.
